

1. Who we are

Welcome to The Muse

A creative communications studio unlike anything you have ever seen before

Our most regular clients include some of the best-known brands in the world, yet our operation is relatively small when compared to our competitors. Coincidence?

No. Excellence in our industry is not reflected by size or status. It is about ideas. About the tight integration of ideas through design, words and media. And most importantly, about results: Inspiring confidence in your customers at every connection.

We look for clients who are passionate about what they do. Clients with the bigger picture in mind. Clients with the confidence to ultimately think beyond 'their' claim, and let results lay in the hands they deserve.

As you will see, we are an exceptional company, offering exceptional services to exceptional customers.

England

Our England studio is situated in Derby, close to one of our most regular clients, Rolls-Royce.

We are well positioned, less than two hours drive away from four of the top five cities in the UK. Allowing us to offer a local service nationwide, and to offer our skills to all who require them.

Japan

Our Japan studio consists of native English and Japanese speakers, offering cross-cultural communication throughout the world's major markets.

The local studio, in Fukuoka, is less than two hours away from Tokyo, Osaka, Seoul, Shanghai and Beijing; an inspirational environment with inter-Asian connections.
